He regulated the temperature, he regulated the food, he regulated the servants, he relative. regulated me. For the first six months of that precious existence, he had me up on an average six times a night. "Mr. Blifkins," says my wife, whring that light here,do; the baby looks strangely ; I'm so afraid it will have a fit I' Of course the lamp was brought, and of course the baby lay sucking his fist, like a little white bear, as he was. " Mr. Bifkins, said my wrie ; I think I feel a draught of air ; I wish you would get up and see if the window is not open a little, because baby might get sick," Nothing was the matter with the wandow, as I know very well. "Mr. Blifkins," says my wife, as I was going to sleep that lamp as you have placed it, shines directly in baby's eyes strange that you have no more consideration. I arranged the light and went to bed again. Just as I was dropping to sleep again, "Mr. Blifkins," said my wife, "did you think to buy that broma to day for the baby?" My dear," said I, "will you do m; the injustice t believe that I cousi overlook a matter so essential to the comfort of that idestimable child?" She apologized very handsomely, but made her auxiety the scape goat. I forgave her, and without saying a word more to her, addressed myself to sleep. "Mr. Blifkins," said my wife, shaking me, 'you must not snore so, you will wake the baby. "Jest so-jest so," said I, half asleep, thinking I was Solon Shingle. Conductor Woodall of the Little Miami railroad, is one of those dashing, generous fellows to whom railroad life is just suited. He likes the daily mixing with the throng, the constant chanances as they pass. If there is anything peculiar in a passenger on his train, Woodall will penetrate it, and no one is more ready, if occasion requires, to tender a sympathising word or a helping hand.

A few days ago a female, about sixteen years of age, got aboard of Woodall's train going east, at a village a few miles north of Cinciunati .-He approached her to collect her fare.

"How far are you going?" he asked.
"To New York," was her ieply,
"I take you only as far as Columbus. The fare is three dollars to that point." The girl opened her pocket book and took out two bank notes - a three and a one. The conductor observed that it was all the money in the pocket book, and as she reached him the three

he asked: " Is that all the money you have?"

" Yes, sir," was the raply. "How do you expect to get to New York "I will travel until they put me off. Then I will go to work and earn money to carry me fur-

"In leed!" remarked the conductor, now deeply interested in the girl. "And may I ask what is taking you to New York?"

"It is my home, sir. A year ago I was perstuded to come West being assared that working girls were better paid here than there. I came out to L ...... and was engaged in the family of they went our West. I then engaged with a farmer, but was taken down with the chills and fever, from which I have not yet recovered.—

fever, from which I have M .- I lived with him a few months, when dollars constitute my savings. I am sick and I am going home. Probably I can get work as I go along to pay my way."

"If that is the case, I cannot take your money," he said. "Indeed, sir, it is true."

"Then take your money back," was his answer, and he passed along.

Through with his collection, he related the circumstance to a coup e of gentlemen pas-sengers, and proposed to head a subscription list if they would go through the train and take up a collection for the girl. The gentlemen readiy agreed to this, and in a few moments had the pleasure of banding her some seventeen dollars, nough to pay her way to New York. She knew nothing of the movement until she received the money, when her grateful feelings gave vent in opious tears. No one doubted her honesty.

But Woodall was not satisfied. Before she left the train he gave her a memorandum selting forth the rout she should take, and a eard which he requested her to use instead of tickets. On the card was written the following : "To My BROTHER CONDUCTORS-I have pass-

ed this worthy young lady on my train to Columbus. A collection was taken up for her, and eventeen dollars placed in her hands by the passengers. For God's sake don't take a cent of "WOODALL

DR. MORSE, the inventor of MORSE'S INDIAN ROOT PH.L.S. has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa as well as North America—has spent three years among the Indians of our Western country—it was in his way that the Indian Root Pills were first discover ed. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD-that our strength, health and life depended

pon this vital duid. When the various passages become elogged, and denot act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, orrupted and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted our health we are deprived of, and if nature is not as-sisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our will become choiced and cease to act, and thus our light of title will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morae's Indian Rost Pills, manufactured from plants and roots which grow around the mountainous cities in Nature's garden, for the health and recovery of diseased man. One of the roots from which these of diseased man. One of the roots from which these Pills are under a Sudoride, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage of the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other numers from the lungs by copious splitting. The third is a Diurotte, which gives case and double strength to the kidneys; thus ancouraged, they draw large amount of impurity from the blood, which is then thrown on bountifully by the urinary or water passage, and which sould not have been discharged in any other way.-The fourth is a Carbarde, and accompanies the other proporties of the Pills while engaged in purifying the stood; the course particles of topurity which cannot pass by the other outlets, are thus taken up and convoyed off in great quantities by the bawels. From the above, it is shown that Dr. Moore's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely rout out and cleanse the system from all Impurity, and the life of the body, which is the bland, becomes perfectly healthy; consequently al al kness and pain is driven from the system, for the annot rounds when the body becomes so pure and

IMPORTANT TO TOBACCO CHEWERS!! DR. GUSTAVUS LINNARD'S TASTE RESTORATIVE TROCHES.

The Great Substitute for Tobacco. It is a well known and incontrovertable fact that the clinate use of Tobacco is the promoting cause of

the most severe MENTAL AND PHYSICAL DISORDERS to which the race of man is subject, as careful analysis and long and painful experience have clearly proven and long and painful experience have clearly proven that it contains cortain narcotic properties most insidious in their effects, which, by entering into the blood derange the functions and operations of the Heart, causing many to suppose they are troubled with a chronic affection of that organ.

TOBACCO affects also the entire nervous system, manifesting itself—as all who have ever used the noxious weed will bear testimony—in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES

Are designed to counteract these baneful influences and have proved completely successful in a multitude of cases, and wherever used.
